26-30.06
IN PERSON,
WROCLAW, POLAND

WROCLAW
MEDICAL UNIVERSITY

Współfinansowane
przez Unię Europejską

In collaboration with:

Are you a Student of Dentistry, Dental Hygiene or Medicine, or are you a PhD Student in the field that makes you interested in dentistry?

Then this Blended Intensive Program is for you! We know that you would like to broaden your horizons, and skillset so here is the proposition to do so. Book your time from **19.06. till 13.06. in online version, and in person from 23.06. till 30.06.**

Additionally, you will receive 3 ECTS points for the participation in this event!

Version in person of the Blended Intensive Programme “**DentalOmics**” will be performed in Poland, in Wroclaw Medical University.

We have chosen the seminars of great researchers from field of Dentistry, General Medicine and Laboratory Medicine from the top European Universities, such as:

- Sapienza University (Italy),
- Medical University of Plovdiv (Bulgaria) and
- University of Cagliari (Italy),
- Egaz Moniz School of Health and Science (Caparica, Portugal)
- and organising the event Wroclaw Medical University (Poland).

Scientists and clinical practitioners will provide you with their experience from above mentioned fields. Additionally, we will have an honour to participate in the seminars of partners from Brazil, both from:

- University of Campinas, rated one of the best Universities in South America and
- Osvaldo Cruz Foundation (Fiocruz): the most prominent Institution of Science and Technology in Health in Latin America.

Financing: Participation in the event is free of charge, limit of applications apply. As per financing of your stay at Wroclaw Medical University, your institution as an ERASMUS+ partner can provide you with the financing for a short term mobility for this event, please contact your ERASMUS+ office. You can also use your own funds to participate in this event.

Who can apply: Dentistry Students from the years of studies 4th, 5th or above or a PhD Students; required knowledge of English at the level of B2. All seminars and practical classes will be performed in English.

Confirmation: you will receive the certificate of participation in the event for both virtual and in person presence. Your certificate will validate the 3 ECTS points for this event, that you can use for your further education.
